

# Hands-On Art

## Workshops that Work

Looking for a unique way to energize your class? Your students' eyes will sparkle as they discover the magic of the colourful eggs known as "pysanky" in Ukrainian folk-art. This fascinating workshop is a teacher's dream!

Brimming with innovative ideas and sensational teaching aids, this valuable hands-on experience teaches not only technique and tradition, but also history and culture. A Ukrainian pysanky workshop integrates with multicultural and language arts, social studies, math and science.

A must for students in all grade levels K to 12, workshops are designed to accommodate up to 35 students. You provide the classroom—Joan will take care of everything else.

## About Joan Brander

Pysanky expert Joan Brander and best-selling author of Pysanky on Paper : An Activity Book for Children (1997) and About the Pysanka : It Is Written! (2007) has over 40 years experience in creating pysanky and over 20 years conducting workshops. As a child in Saskatchewan she learned the age-old tradition that was passed down through the generations from her grandmother whom she called "Baba".

Responding to the growing interest in this popular art-form, in 1991 Joan began giving workshops in schools, community centres and special interest events.

Joan's affordable kits, teaching aids and Pysanky supplies are available for sale through her company **Baba's Beeswax**. Joan didn't have to look far to find an ideal name for her enterprise: **Baba** because she was her inspiration and teacher—**Beeswax** because of its significance to the technique.

Joan now resides with her husband and son, Jacob, in Richmond. She is proud of preserving one of the great traditions of all time - pysanky!

## Designed for Busy Teachers

- ✓ tailored so that everyone completes a pysanka
- ✓ all materials are provided
- ✓ each student has his/her own tools
- ✓ technique is explained and demonstrated in a simple manner
- ✓ easy, well thought out, step-by-step instructions
- ✓ teaching aids (visual, auditory, sensory, etc.)
- ✓ creativity is encouraged with examples and choices
- ✓ children use eggs that have been emptied and rinsed out

teachers can't stop talking about this one!

## What People Are Saying . . . .

*"Joan creates a tone that is calm, friendly and focused on the task at hand. She is clear in her expectations for behaviour thus ensuring that the activity can be handled safely and that children can be successful. She is obviously an expert in this artform and can problem solve with a child when an error has been made."*

Arlene Racicot  
Principal, Rideau Park Elementary School

*"Joan brought in charts and gave easy step-by-step instructions. Her high level of experience was evident when it came to solving problems and showing the children how to use their tools safely."*

Dawn Lessoway  
Teacher, Kilgour Elementary School

*"Joan was truly sensitive to the needs of her audience, encouraging questions and creativity; participants were confident they could create a beautiful product under her wonderful tutelage. Her workshop is outstanding, helping to foster respect for diverse cultural traditions in a pluralistic society."*

Jenny Coyle  
Teacher, Palmer Secondary School

*"After the beeswax was melted, we drew our own egg. We drew pine needles and flowers and dots. We put the egg in the dyes."*

Shaelee Gummer and Kyleen Toyne, age 7  
Students, Annieville Elementary School

## How Pysanky are Made

Empty eggshells are decorated with motifs in the technique known as "wax resist".

Traditional symbols, designs and patterns are applied with melted beeswax using a tool called a *kistka*. Eggs are dipped into successively darker dye baths. At the end of the process the beeswax is removed to reveal a dazzling display of colour.

## Half Day Workshop at a Glance

- introduction 5 min
- video presentation 15 min
- description of tools 5 min
- demonstration/safety 10-15 min
- technique 30-40 min
